

THE WITCHER
OLD WORLD

FAQ

v1.0

Core game 3

Wild Hunt 7

Legendary Hunt 10

Skellige 13

Adventure Pack 16

Monster Trail 17

Mages 21

Other expansions 22

1. "As a result of your Attack"

When an effect inflicts Damage out of a Combo, does it trigger effects that call for an Attack? Or are Attacks considered to be the Combo and nothing else?

Answer: Any effect that says "as a result of your Attack" is triggered when you damage your opponent, no matter the source/effect. Sometimes your Shield level is high enough to absorb all the Damage, and you do not have to discard a card. That's why we decided to use the sentence "to discard a card as a result of an opponent's attack".

2. Return this card to your hand

The effect "Return this card to your hand" states: "Other Cards used in the combo (if any) are sent to the discard pile." If 2+ cards with this effect are used in the same combo, do you return both cards to your hand or only one?

Answer: Both.

3. Discarded potions

Where do you place discarded potions?

Answer: To the discard pile near the potion deck.

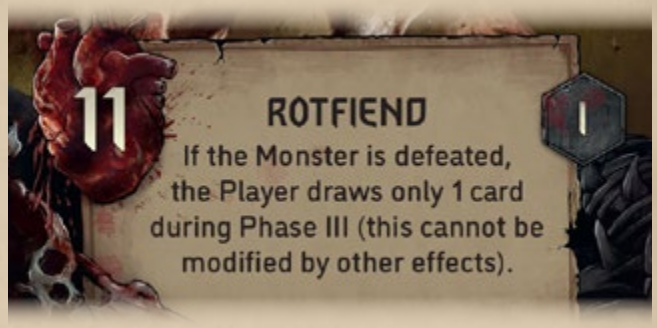

4. Combo

Can I perform special Effects from my Combo in any order?

Answer: In any order - that doesn't matter.

5. Monster Card - Rotfiend

Does this supersede any other effects which instruct me to draw additional or fewer cards in phase III of my turn?

Answer: Only the Exploration card effect may change the number of cards you draw during phase III. If you Fight, you do not Explore. Playing with Skellige expansion may be an exception here - in that case, the player draws 1 card after defeating the Rotfiend, no matter what the exploration card says.

6. Grave Hag's first Fight turn

What is the order of suffering damage in the Grave Hag's first Fight turn?

Answer: Hand -> Shield -> Deck

7. Raising attribute level as a reward

If you need to roll a die by any circumstances and as a reward, you have to raise your attribute level as a reward, but you can't (it's already at the maximum), do you get to reroll?

Answer: In that case, you don't get any reward.

back to Contents

8. Level 5 attribute

Can the monster fight effect lower a level 5 attribute?

Answer: No, it cannot. You can never lower a level 5 attribute.

9. Action card deck

Do you replenish the Action card deck?

Answer: During a 5-Player game, there is a small chance that the Action deck will be empty. In that case, Players should shuffle the discard pile.

10. Trail tokens

Can a player have several trail tokens of the same type?

Answer: No. One per each type. If you have a mission for a trail and the exploration card says: get a trail (same type), then you discard your mission for a trail (you do not gain gold from the trail token in that case!).

11. Gain an action card

When an exploration card allows you to gain an action card with exact value - does it mean unmodified (printed) value or modified (-1, +1)?

Answer: Unmodified. You use the modified value only during Phase III of your turn.

12. Next Exploration

What does "During your next Exploration" mean?

Answer: It means next time when you decide to "Explore" in phase II.

13. Ignore limit effect

When I can draw any card (e.g., Potions) ignoring the limit, how long does the "ignore limit" effect last?

Answer: It works once, immediately. E.g., you draw up to 5 potions. After you use one of them, your limit is 4 again.

14. Blizzard potion

Blizzard potion ability: What is the meaning of finishing a combo? Does it mean after "playing a card combo" or "resolving a card combo"?

Answer: After Playing a card combo. Be noticed, that the card is not a part of the combo (for example, it wouldn't count as 3rd card for the Wolf Witcher's special ability).

15. Discarded cards

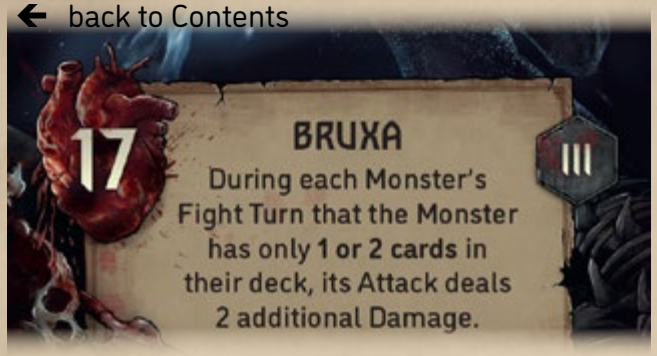

Where do the various discarded cards go beside the action cards? (Event cards, Exploration cards, Potion cards, Monster cards, etc.)

Answer: Any place on the table. Only the players' action cards have the discard pile. All other cards are discarded, and it depends on the players where they have free space to place them.

16. Bruxa's special ability

Bruxa's special ability works for her 2 last cards (condition checks before the card was revealed) or for her 2 cards before the last one (condition checks after cards were revealed: you take third from the bottom card, now deck contains 2 cards, the ability starts working immediately and that attack already have additional damage)?

back to Contents

Answer: Bruxa's special ability works for her 2 last cards (condition checks before the card was revealed).

17. Glustyworp trophy ability

Glustyworp trophy ability triggers before or after the Player creates their Life Pool?

Answer: After. It's a "step 0" of the player's first fight turn.

18. Changes of level of abilities

If any Potion or Equipment card says that you have to lower the level of any of your abilities and do something more, but you can't lower the level - can you use this card and perform just the second part?

Answer: No, you have to be able to pay the cost to use any of the cards.

19. Reshuffling of card deck

Can I reshuffle my deck only at Phase III?

Answer: No, you reshuffle your deck anytime you are about to draw a card but your deck is empty. Of course, the fight is the exception.

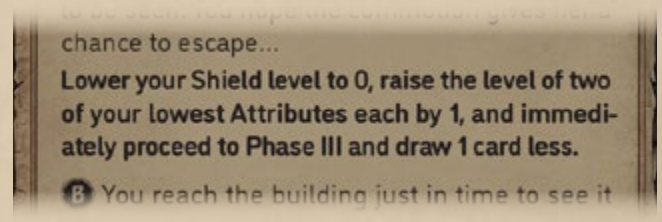

20. Trophy

"Once per fight" - may I use these effects whenever I want during a fight? Are they mandatory?

Answer: Using it is always an option.

21. Event Card 24

Let's say your Defense level is 4 and your shield is 4. You just resolved an event card that lowered your shield to 0, so now your shield is 0. After that, you raised your defense level to 5. Then, you don't get 1 shield even though your current shield is 0?

Answer: You get 1 Shield in that case. You raise your Shield level every time you raise your Defense level.

22. School of the Wolf Speciality

Does it trigger immediately when you add 3rd card to your Combo (so you can use cards drawn by its effect in that Combo)? Or it triggers after you finish your Combo (when it has 3+ cards).

Answer: The second option.

23. Thunderbolt potion

Do I need to have at least 1 Shield level to use the Thunderbolt potion?

Answer: Yes, you do.

24. Fight rules

Does general fight rules apply to PvM and PvP fights?

Answer: Yes, they apply to both types of fight.

25. Hand limit

What if I have 7 cards in hand and may draw more?

Answer: If you're about to draw the 8th (or more) card, you may discard one (or more) that you already have. Exception: during a Fight, you simply do not draw cards when you have 7.

26. Buying a card

What if I cannot buy a card in Phase III?

Answer: You do not gain a card, then.

1. Nithral's Special Ability

Does Nithral's Special Ability allow you to choose different Hounds per player? Or do you always select 1 Hound, and the "per player" part only applies to "place 1 Shield"?

Answer: 1 Shield per player; you add every Shield to THE SAME Hound.

2. Caranthir's Special Ability

Each player draws the token separately, so they shall be in different locations, right?

Answer: Right.

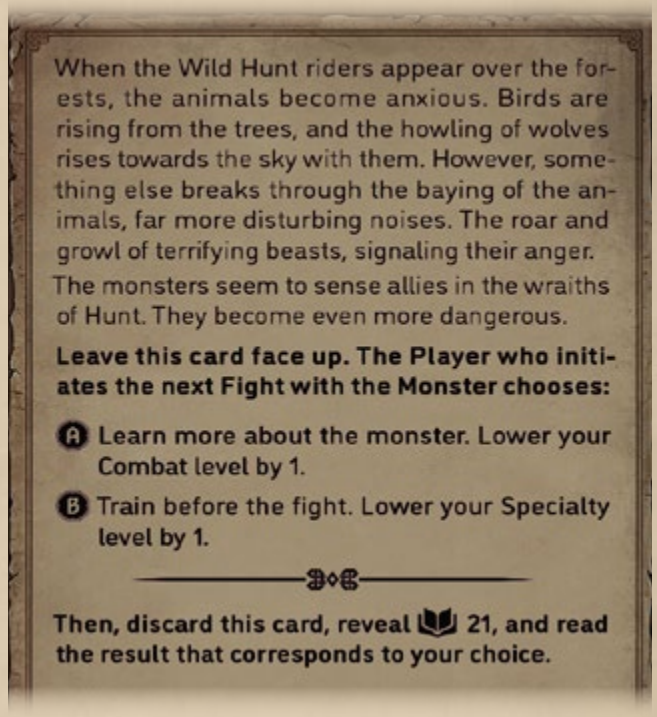

3. Caranthir's Special Ability

After players are affected by Caranthir's Special Ability and resolve its effect, do they discard drawn Location tokens?

Answer: The drawn location tokens are shuffled back into their stacks.

4. Exploration Card 7

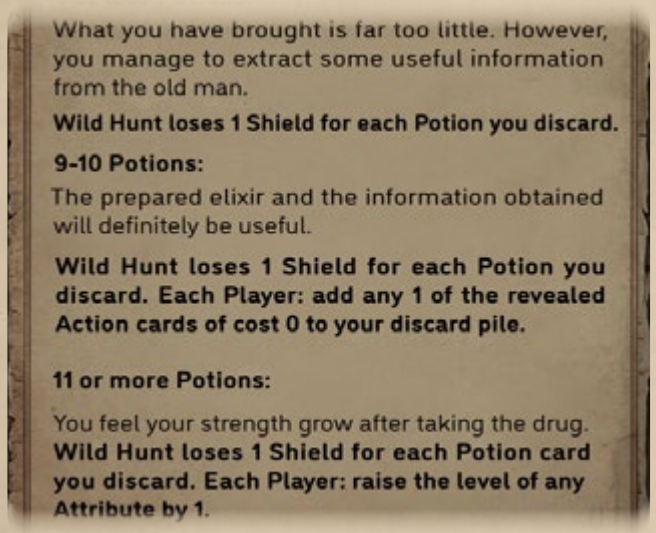

Why are there effects in options? Shouldn't these be in the results? Is it a cost that should be paid in order to choose that option? If so, what happens when a player who should make a choice cannot lower their Combat or Speciality?

Answer: If their Combat and Specialty levels are 1, they choose one of these options. If one of these Attributes levels is 1, they should choose the second one.

5. Event Card 32

When effects on this card mention "Potions you discarded" does it mean only the number of real potion cards that have been discarded, or does it mean "potions collected" (with the addition of potions depending on the number of players)?

What you have brought is far too little. However, you manage to extract some useful information from the old man.

Wild Hunt loses 1 Shield for each Potion you discard.

9-10 Potions:

The prepared elixir and the information obtained will definitely be useful.

Wild Hunt loses 1 Shield for each Potion you discard. Each Player: add any 1 of the revealed Action cards of cost 0 to your discard pile.

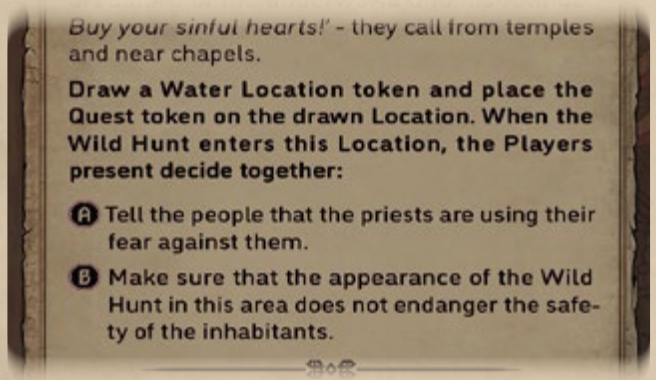

11 or more Potions:

You feel your strength grow after taking the drug. **Wild Hunt loses 1 Shield for each Potion card you discard. Each Player: raise the level of any Attribute by 1.**

Answer: discarded + added

6. Exploration Card 18

"Players present". Decision on this card made only by players in that location (with Quest Token and Wild Hunt)? Or by all players? Effects from results (Event 25) apply only to players in that location too?

Buy your sinful hearts!' - they call from temples and near chapels.

Draw a Water Location token and place the Quest token on the drawn Location. When the Wild Hunt enters this Location, the Players present decide together:

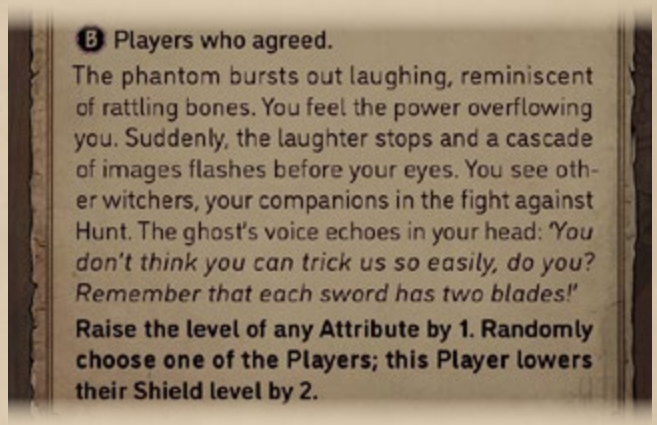

A Tell the people that the priests are using their fear against them.

B Make sure that the appearance of the Wild Hunt in this area does not endanger the safety of the inhabitants.

Answer: Only players in that location can decide. Results apply only to the players in that location.

7. Event Card 17, option B.

Randomly choose one of the Players who chose option B or one among all Players? Also, is this effect of choosing a random player resolved only once or once for each Player who chose option B?

B Players who agreed.

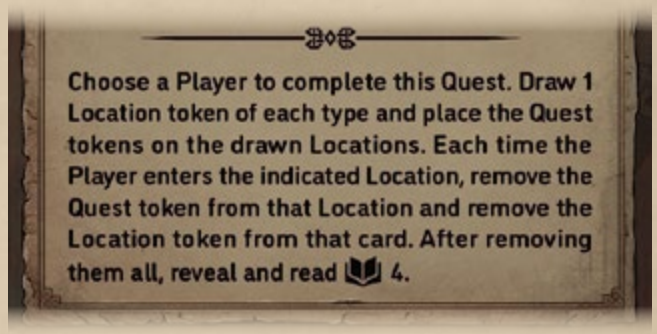

The phantom bursts out laughing, reminiscent of rattling bones. You feel the power overflowing you. Suddenly, the laughter stops and a cascade of images flashes before your eyes. You see other witchers, your companions in the fight against Hunt. The ghost's voice echoes in your head: *'You don't think you can trick us so easily, do you? Remember that each sword has two blades!'*

Raise the level of any Attribute by 1. Randomly choose one of the Players; this Player lowers their Shield level by 2.

Answer: All players. Once for each Player who chose that option.

8. Exploration Card 13 and similar.

What if there are not enough Location tokens in some pools? Do you reveal only as much as possible (like on other similar cards)?

Choose a Player to complete this Quest. Draw 1 Location token of each type and place the Quest tokens on the drawn Locations. Each time the Player enters the indicated Location, remove the Quest token from that Location and remove the Location token from that card. After removing them all, reveal and read 4.

Answer: Correct.

back to Contents

9. Special Fight Card

This is the only effect that lowers your highest attribute. Am I right that nothing will be reduced if any of your attributes are at level 5? (because you cannot resolve the effect in that case: your highest attribute is at level 5 and therefore cannot be lowered).

Answer: Yes, the attribute at level 5 cannot be reduced. In that situation, you should reduce some other attribute (the second highest attribute).

1. Golem's Unstoppable Attack

Golem's Unstoppable Attack (and similar abilities) meant to deal 6 or 8 (2 + 6) damage to a player when they cannot discard a yellow card?

Answer: No, they take 6 damage instead.

2. Cyclops's Stun

Cyclops's Stun makes a player place 2 random cards on the top of the deck in random order, or can the player choose the order?

Answer: In random order.

3. Movement deck in Solo mode

In Solo mode, does the Movement deck not reshuffle? Players just have 9/8/7 turns to win?

Answer: Yes, they should be able to win during this time.

4. Legendary Hunt rules, p. 7 (Solo Mode)

If the Legendary Monster is unable to perform the Movement, the Player draws 1 Legendary Monster Movement card and places it to the game box. They do not place the Destruction token on the Game Board.

Does that mean "discard the current LH movement card", "discard one more LH movement card in addition to the current card," or something else entirely?

Answer: The current card. There may be a moment in the game, it will be obvious that the Legendary Monster is not able to perform any movement (it has the destruction tokens all around). If so, you draw a card anyway and place it in the game box (so you do not have an "extra round").

5. Legendary Hunt rules, p. 7 (Solo Mode)

If the Player drives the Legendary Monster away, they do not draw a Legendary Monster Movement card. Instead, they choose any connected Location.

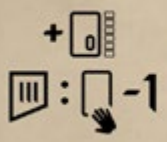

One without a Destruction token, presumably? Or are you allowed drive away the Legendary Monster to a location with a Destruction token in LH Solo Mode?

Answer: Yes, one without a Destruction token. It's impossible to drive the LM away if there is no "free" connected location.

back to Contents

6. Gain new card from Destruction token

From rules, p. 6, Destruction token bonuses:

Gain a 0-cost card (following the standard rules); and, during Phase III, draw 1 less card.

Does that 0-cost card go to your discard pile?

Answer: Yes, it does.

7. Defeated by Legendary Monster

From rules, p. 7:

Fight Outcome

If the Player kills the Legendary Monster, they win the game.

If the Player fails to kill the Legendary Monster, the Player is defeated and draws 1 Destruction token from the pool, gains its immediate bonus, and places it face down near their Player Board.

Does that defeat outcome replace the defeat outcome from the base game (Take 1 Trail Token, Add a 0-cost Action Card, and draw 1 card less during Phase III)? You just take a Destruction token, gain its bonus, reshuffle your deck and proceed to Phase III?

Answer: Yes, exactly like that.

8. LM unable to move

GAMEPLAY

The gameplay follows the rules explained above with few differences:

- If the Legendary Monster is unable to perform the Movement, the Player draws 1 Legendary Monster Movement card and places it on the top of the Legendary Monster Movement cards discard pile. They do not place the Destruction token on the Game Board.

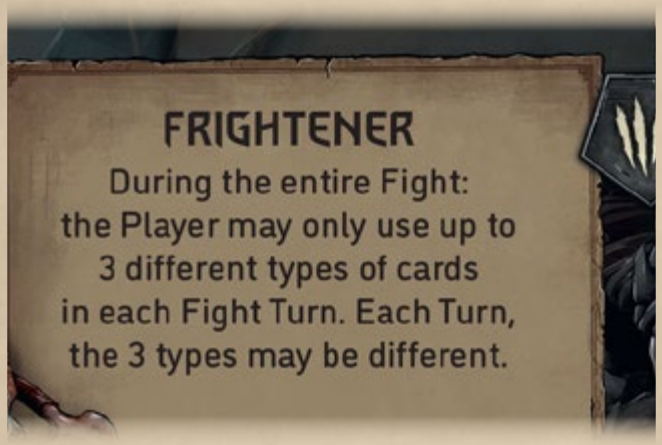

5. If all neighboring Locations contain a Destruction token, this Movement, and all consecutive Movements this Turn are ignored.

The solo rules explain that if the LM is unable to move, the Player should draw a card (and discard it) anyway. But this comes as one of the differences in the solo mode. So how is this dealt with in a game with 2+ Players? If at the start of the LM's Turn, all Connected Locations have Destruction Tokens, the Last Player doesn't draw a Movement card, then? There was a sentence, "all consecutive movements this Turn are ignored," but I guess it only applied to the LM unable to move during the 2nd or further movement. In the example I mentioned here, the LM cannot move since the beginning of its turn.

Answer: In that case, this movement is ignored as well.

back to Contents

9. Frightener's Special Ability

3 different types based on the card title or the card color?

Answer: Color.

10. Special Fight Cards

This is not like other monster cards written in detail.

Which of the following is the effect of this card?

Empty deck:

1. any cards from their hand.
2. chosen cards from their hand.
3. random card from their hand.

Answer: Any cards from their hand.

11. Destruction tokens

What if there is no more destruction tokens in the pool?

Answer: The Legendary Monster movement is performed. However, it does not leave any destruciton tokens on its way.

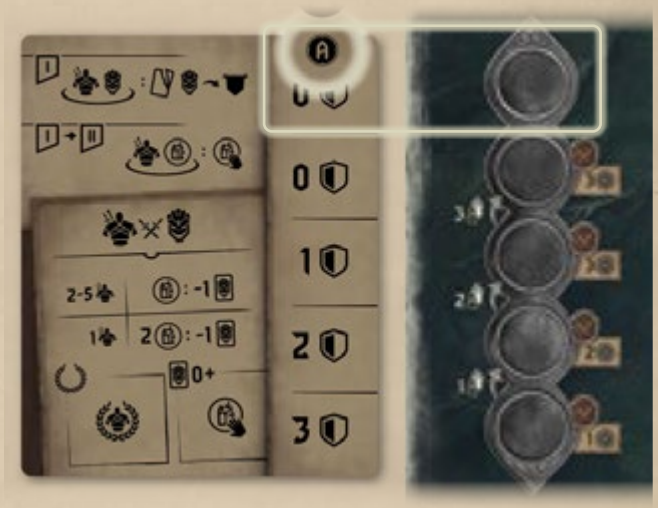

12. 4th+ trophies

A. In Legendary Hunt, players don't win when they gain 4th trophy in battle?

Answer: No, they do not.

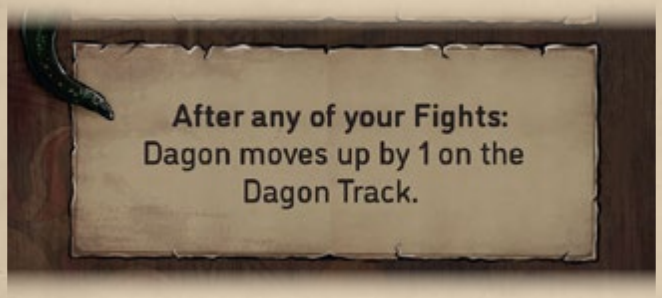

B. If not, when a player gains the 4th+ trophy and moves to the top of the Trophy track (help card has last spot next to the last spot on Trophy track) then how many cards do they trash when moving there? And how much gold do players get from defeating that witcher?

Answer: You do not trash any card and gain 0 gold.

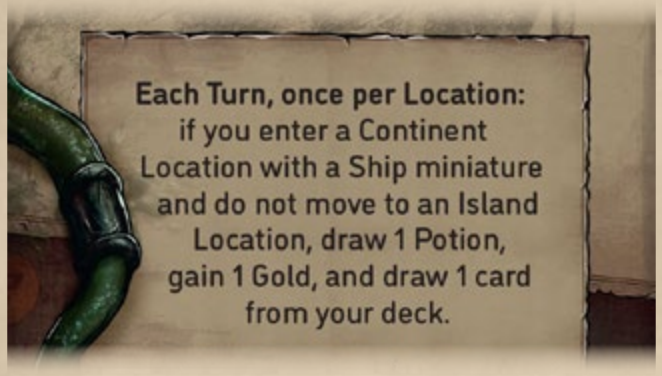

1. Multiple Dagon Bonus cards

Can a player have multiple Dagon Bonus cards? If yes, does the second effect of these cards add up (so Dagon moves multiple steps after any of the Player's fights)?

Answer: Yes, you can have more than one Dagon Bonus card, and their effects add up.

2. Dagon Bonus card 5

I am right that the effect of this card triggers only when all of the following are true:

- Your last movement was from Island or Dagon to the Continent location.
- This turn that effect hasn't been triggered yet in a location where you are.
- Now you are moving to another Continent location OR ending Phase I.

(that seems a bit complicated condition).

Answer: The last movement must not be performed from the Island/Dagon Location. What's necessary is: there is a ship in the entered location, and you are not using it.

3. Dagon Bonus card 5 again

It works when you travel from Island to Continent (and don't travel to Island again)? It's considered "enter a Continent Location with a Ship" despite that Ship it is a Ship on which you just traveled back from Island?

Answer: No, it does not work in that case.

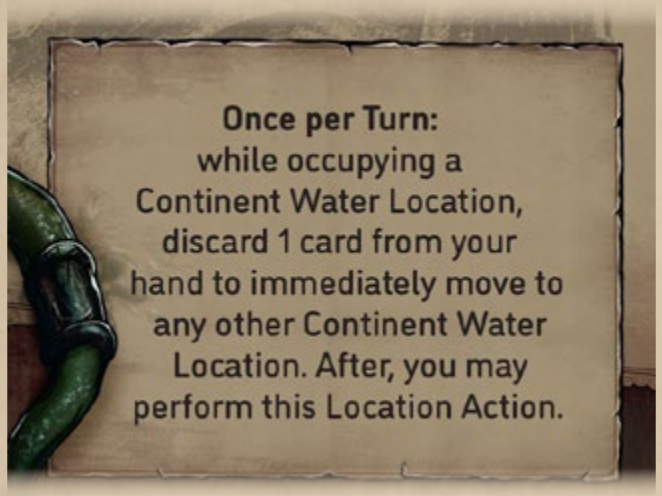

4. Dagon's Special Ability

By its effect, players discard 1 random card per Trophy they have? (or this part applies only to Shield level lowering and always exactly 1 card discards?).

Answer: 1 card is constant. Lowering Shield level depends on the number of Trophy cards.

5. Dagon Bonus card 2

Water location where you move by that ability must be Connected to your present location or not?

Answer: No, that may be any Water Location.

6. Ulf'heid Effect

The Player randomly draws a Level-1, 2 or 3 Monster token from the pool.

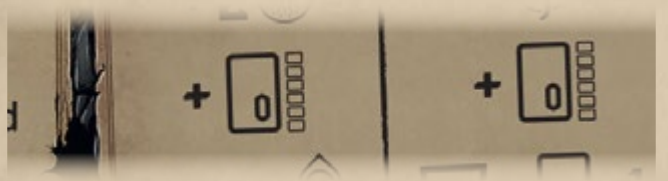

Can I choose between each level stack? Or from whole-level tokens?

For example, may I choose only Level 1 tokens? Or should my pool be a whole level?

Answer: You choose the level.

7. Dagon reward

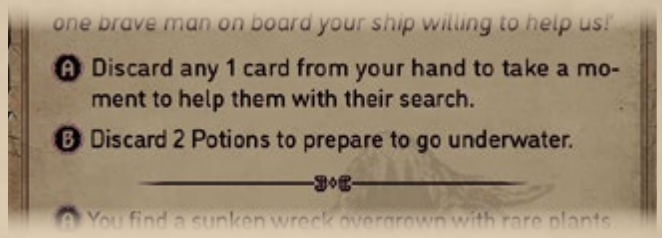

Any chosen 0-cost card from the pool of the 6 available.

I assume that 0-cost card goes to your hand. Am I right?

Answer: To your discard pile. You draw a card to your hand only during phase III.

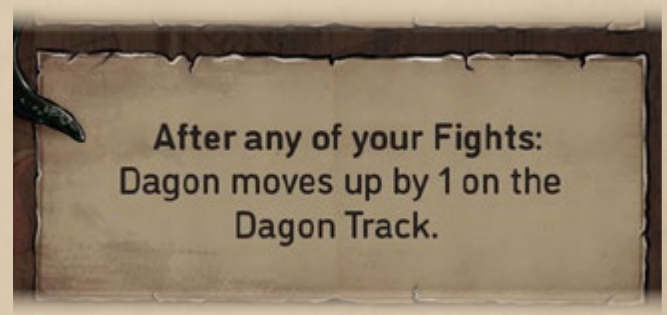

8. Exploration card 14 choice

What do you do if you cannot pay for any choice? Maybe the first choice should be added "Empty hand: do not discard any card." like in card 6?

Answer: You pay as much as you can.

9. Dagon Bonus 2nd effect optionality

The choice to activate any effect from cards in the game is up to the player. But what about the second effect from the Dagon Bonus card? Is it required? Or the player can activate or not activate it at will, after the Fight?

Answer: It is required.

10. Island and Dagon Location travel in 1 turn

Can a player travel in one turn to an Island location, back to the continent, and then to the Dagon location to fight him?

Answer: Yes, they can.

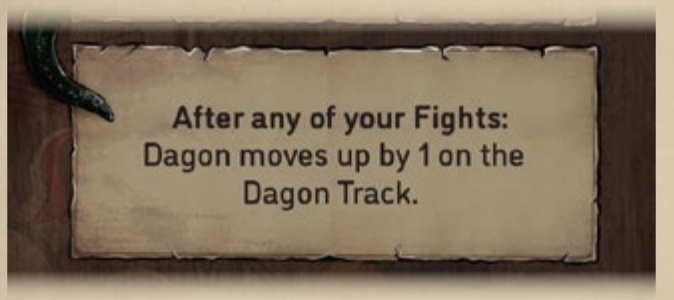

11. Are Dagon Bonus cards trophies?

Dagon cards considered are Trophies (for effects such a "per each Trophy card")?

Answer: No, they are not.

back to Contents

12. Dagon Bonus card second ability trigger

When does the second effect of Dagon Bonus cards exactly trigger? After resolving a Fight outcome or before?

If after: It triggers immediately after you get this card (so the Dagon miniature is placed on its appropriate spot and immediately moves up)?

In any case: It triggers when you win Dagon and already have this card?

Answer: It does not trigger immediately after receiving this card. But if you fight Dagon for the second time, having this card already, Dagon moves up by one immediately after this fight.

1. Event card 67

Is the Map ability used during the Movement step instead of a regular movement or does it allow an additional movement during the player's turn?

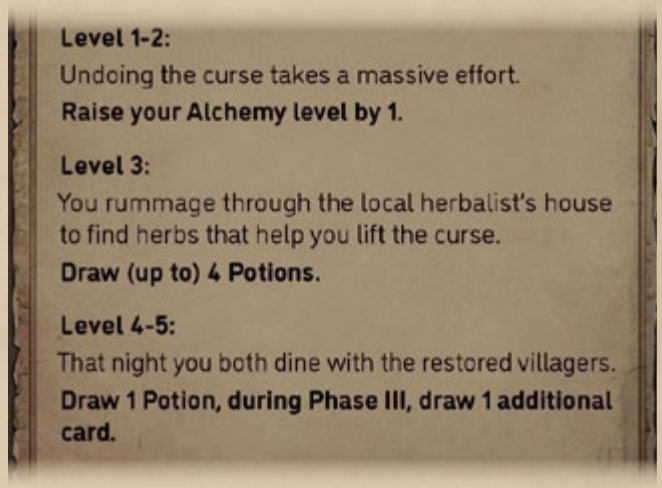

Answer: You have to play a card to do it so it's treated as a regular movement during the player's turn.

2. Event card 11

that effect allows you to move to these locations from connected locations, just with any card? Or does it allow you to move there from any location ("teleport" from even another side of the map)?

Answer: The first one.

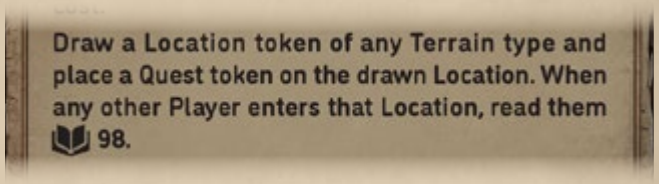

3. Event card 89

What Level? Alchemy?

Answer: Character's level.

4. Location tokens for Quest tokens

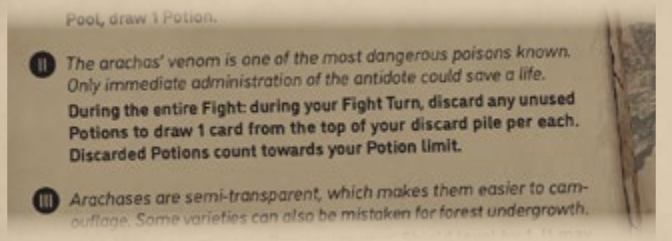

How this effect (AP Exploration card 38) and similar should work in regards to drawn location token:

- It is placed onto that Exploration card and remains there until associated Quest token is removed;
- Or it shuffles back into the pile immediately after determining the Quest token location?

Answer: The first one.

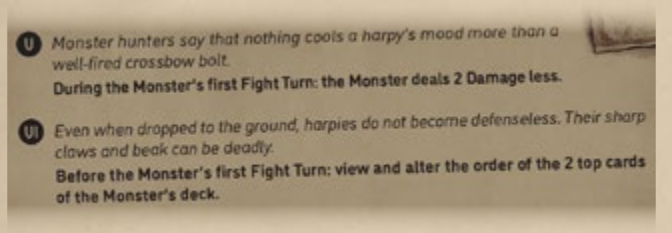

1. Arachas Weakness II

That ability can be used at any time (even at the Monster's turn) any number of times?

Answer: During Player's Fight Turn, any number of times (a number of Potions is the limit).

2. Harpy Weakness VI

You must alter the order of these cards and can't place them in the same order?

Answer: It may be the same order.

3. Monster Weakness

Can Monster Weakness block the Monster Ability?

Answer: Yes, it can.

4. Monster Weakness token

Should the Monster Weakness token initially placed in location be any random MW token or it should be a random MW token of the same Terrain type as a location itself?

Answer: Same type as the Location itself.

5. Pirouette Action card

A. Which color of extension you can use when adding Pirouette to the combo? Yellow (purple/green for other versions of card), blue, any of them?

Answer: The Pirouette is a blue card and it has to be preceded with a blue extension.

B. To activate its special effect Pirouette should be connected to a yellow (purple/green) card right before it? Or yellow (purple/green) cards should just be anywhere in your combo before Pirouette?

Answer: Right before.

6. Mutagens

If the Mutagen cards deck runs out, players just stop getting anything from further level-ups? Or they may at least draw a card(s) as per base rules?

Answer: They draw cards as per base rules.

7. Bombs

By default, Bombs can be used like Potions: only on your Fight turn at Step 1?

Answer: Sometimes their effect applies later (i.e., Dragon's Dream).

back to Contents

8. Critical Hit Action Card

Because you can perform Special Effects of your Combo in any order, this means that you can choose first to activate that card effect (now you should draw 0 cards) and then other effects that allow you to draw more (now you should draw some cards despite playing Critical Strike)?

Answer: No, if this card is in your combo, other modifiers do not apply.

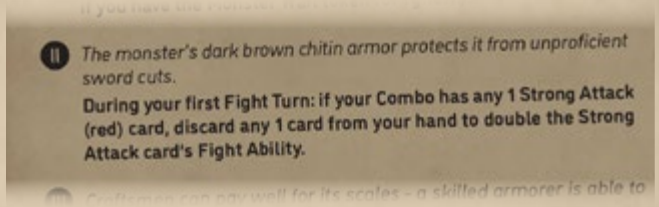

9. Dragon's Dream bomb

deals damage immediately as you play a purple card before you ended play your Combo? Or does it add one damage to Combo when it's done?

Answer: The first damage is dealt immediately. The additional damage is added when the combo is done.

10. Yghern Weakness II

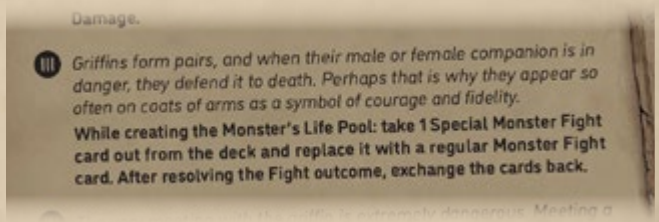

Does the card's Fight Ability also include the text or only the icons? Are the icon effects to draw fewer cards doubled as well?

Answer: Only icons. Draw decreasing is doubled as well.

11. Griffin Weakness III

That's some ambiguous effect:

>take 1 Special Monster Fight card...

Can I choose which one?

Answer: Random card from the already prepared Monster's Life Pool, .and replace it with a regular Monster Fight card taken from the non-used monster fight cards.

12. Wild Hunt and Monster Special Attacks combination

When playing with "Monster Weakness and Special Attacks" until Level 3 Monster appears, the Monster Fight cards deck contains 16 cards. What should we do when playing with "Wild Hunt" and a monster has its Life Pool increased over 16 when our Monster Fight cards deck still contains only 16 cards?

Answer: Wild Hunt special effect cannot extend the Monster's Life Pool above 20 (in that case, above 16).

13. Striga passive ability

– how does it work?

Answer:

A. Striga with combo:

1. Player plays their combo of, let's say 3 cards with 5 damage symbols.
2. Monster controller discards the first card, and second card. The second card is a Monster special fight card.
3. The first half of the passive ability is triggered. Striga stops discarding cards.
4. The second half of the passive ability is triggered, since the Player already played their combo, as you can see in 1). The player returns the last card in their combo to their hand.

B. Striga without combo

5. Player used a bomb card and deal 1 damage to Striga in step 1 of their fight turn.
6. Monster controller discarded Monster special fight card, triggers the first half of passive ability.
7. The second half of passive does not trigger since the player hasn't played their combo.
8. Player plays their combo with 3 damage symbols. Since the first half of passive ability has been triggered, this combo deals no damage.
9. According to 3), player does not return the combo's last card to their had.

14. Troll's passive action

Can you use Troll's passive action to draw special fight card?

Answer: No, you cannot, that would make Troll immortal.

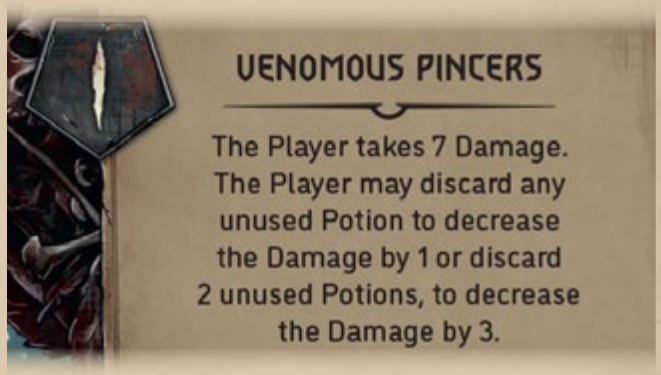

15. Fiend - Furios Charge Attack

Does Fiend perform its next Fight Turn in both cases, or only when Player cannot discard 1 Fast Attack card?

Answer: Both.

16. Yghern - venomous pincers

Can this ability only discard 1 or 2 potions?

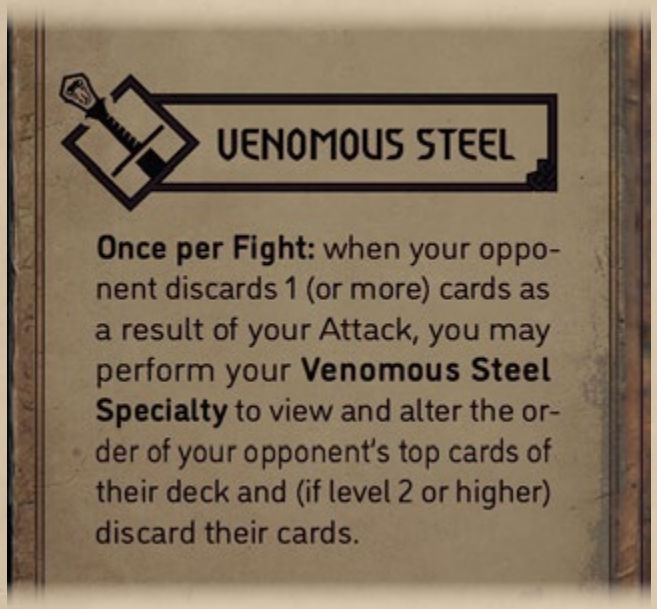

1. Yes: Decrease 1 Damage / 1 Potion
   Decrease 3 Damage / 2 Potions
2. No: Decrease 1 Damage / 1 Potion
   Decrease 3 Damage / 2 Potions
   Decrease 4 (1+3) Damage / 3 Potions
   Decrease 6 (3+3) Damage / 4 Potions

I think it's option 1 (yes) myself, but I have to be sure of the answer.

Answer: Option 1 (yes) is correct.

back to Contents

17. Viper Special Ability

Viper Special Ability, if I discard a Monster Special Attack Card does it trigger the passive?

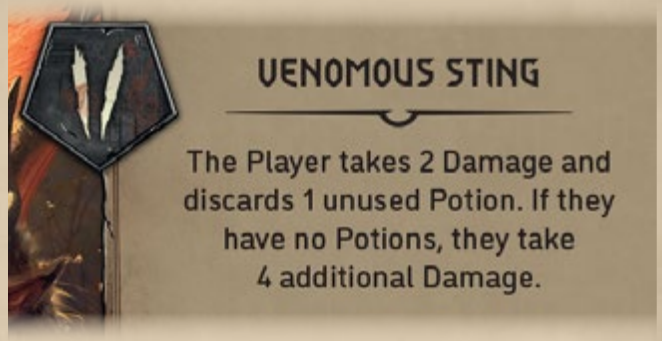

Answer: No, the passive effect is not triggered.

18. Dice on monster cards

Some special attacks (Leshen, Rotfiend) place dice on a monster card. These are discarded at the end of Fight if the monster was not defeated and remains on board?

Answer: Yes, they are discarded. You "reset" the monster after the fight.

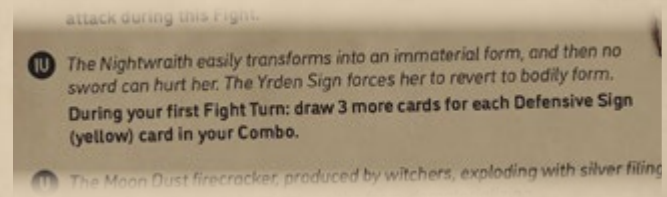

19. Manticore Venomous Sting

"... If they have no Potions..." — after they discard 1 or before?

Answer: Before.

20. Nightwraith Weakness IV

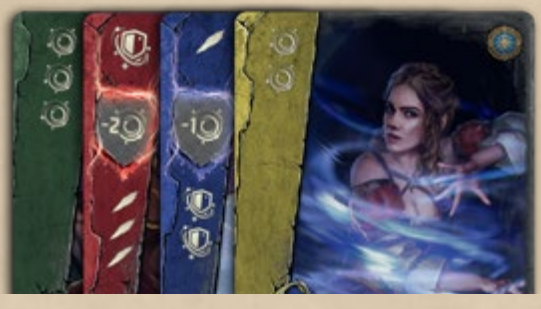

These card draws occur "During Step 4 of your first Fight Turn"? It's really intended to be "+3 cards for EACH yellow in your combo"? (Looks overpowered)

Answer: Remember, that your hand limit is 7. So yes, that allows you to draw up to 7 cards quite easily during step 4 of your first fight turn.

back to Contents

1. Energy and Shield

When resolving effects like "immediately play a Combo (only apply Shields...)" for Mage do you apply Energy symbols instead of Shields?

Answer: Yes.

2. Philippa and Alzur Speciality

What happens if the result should be 0 or lower? It stays at 1? At 0? Or you cannot choose any effect?

Answer: You cannot choose.

3. Signs

When an effect states "If you have Yrden sign card", without mentioning the card color - what happens if you play as a Mage? (Same for other signs)

Answer: Mages never have Yrden or any other sign in their hand or combo.

4. Extensions

When does the effect from used extensions resolve? Strictly after boost effect: Basic > Boost > Extension?

Answer: Yes, it's resolved after the basic effect but before the extensions and the next card.

5. Transformation Action card

Should you use your Speciality the same turn when playing this card to activate its effect? Or you could use Speciality any earlier turn, and it still counts for this card effect?

Answer: It could be used earlier in the Fight.

6. Monster passive action

Can Monster passive action stop the Mage in the middle of their combo?

Answer: No, you play the whole combo together and sum up all the damage first (resolving it card by card). It is said to resolve it card by card due to the Energy mechanics - you can gain some Energy with one card and spend it to boost another card in the same combo.

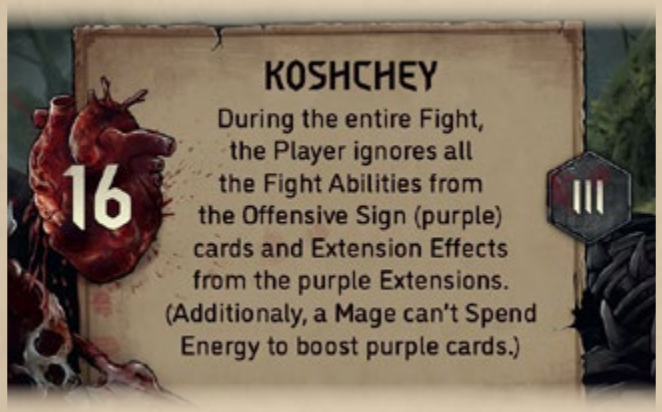

7. Energy

Is energy always limited by 4 (maximum value on player board)?

Answer: Yes, it is.

1. Koshchey Special Ability

- what does it affect?

About that part: "ignores all the Fight Abilities from the Offensive Sign (purple) cards."

What exactly should be ignored from purple cards? All but non-purple Extension effects?

Special actions ignored too?

Answer: Special Action applies. Non-purple extension effects apply. Anything else is ignored.

2. Koshchey

Koshchey Large card back - the part "If there is no Blizzard in the deck, draw any 1 Potion."

- does it mean the player can choose any 1 card in the deck?

Answer: Yes.

3. Siren

When Siren is defeated or driven away new monster spawns?

Answer: No.

LOST MOUNT
EXPANSION

1. Lost Mount

When the player enters the location which the Lost Mount is in and ends his phase I, who will pick the 2 location tokens and choose 1, the last player or the active player?

Answer: The last player.

MOUNTED EREDIN
EXPANSION

1. Mounted Eredin

The ability "drawing only a location token"

- what does it mean?

Answer: That means you do not draw a Monster Token randomly, because it's Eredin. You draw only the location token.
